Case for Palestine

1. I can't make you into a humanitarian or anti war

2. I can't convert you to Islam

3. I can't show you Christian persecution in Palestine

4. I can't show you the Zionists own America

5. I can't show you Christianity is not compatible with America but is compatible with Palestine

6. I can't show you the Bible denounces Zionism

7. I can't show you this will bring the Anti-Christ

8. You think I'm pushing Sharia Law at home or are an anti-semite for opposing them

9. You think I'm trying to "wipe Israel off the map"

Jehovah's Witness believe in neutrality so long as someone has belief; does not persecute followers of God, and does righteousness; however our Lord stands with Palestine because the antichrist will emerge in Israel and they do persecute people of the Book. Evangelicals believe God desires peace and is of all nations of the earth so they cannot pick a side.

FSA and Al Nusra Front try to overthrow Assad, they send in fighters from Turkey and Jordan. The operation fails; they create "ISIS" as a third enemy in Syria to fight Assad. "ISIS" was suppose to ally with Kurds. "ISIS" has weapons left over from the Iraq War. FSA is dead, US hopes for Al Nusra to win. They have the best weapons. We can't tell which videos are Al Nusra Front and "ISIS" since they both dress in black. If Al Nusra Front won, they would create a generation to declare war on Israel.

Qatar, Saudi Arabia, Syria, and Turkey pipeline was rejected by Assad in 2009. This would have helped oil reach Europe much faster. Assad had accepted a Syria, Iran, and Iraq pipeline instead.

I want someone to read this as if it is their own family who dreams are now crushed and decide if it is worth it or not to get rid of Assad because more people will have to accept that what may not be perfect is now gone.

to be updated, start with the notes in the book

Traps someone had tried to use and extras included:

Greed- Assad lives in a Palace

He crushed the Revolution- elections did, why should I care?

Government has too many jobs- if they open the markets up, the country will collapse by outsiders

Cannot work your way up- country is poor...duh?

Protests were necessary- false, the economy tanked because of the Arab Spring, this is a trap

Peaceful protests- correct, at first they were peaceful. However terrorists hid in them

Syrian government must be overthrown- no, some bold killers it would be smart for them to rebel for money. Qatar is giving over $50,000 for families of defectors. Suppose Syria was to fail, these killers would not be able to decide who holds what seat. Their greed is their downfall. Many of them are spies too.

His police shot at protesters- false, paid mercenaries shot at police

Chemical weapons- false, done by Al Nusra Front

Civilian causalities- yes that happens in wars

Dictator- false, he had over 90% of the ballot, Assad would gladly leave

Sunni's disapprove of him- false, the majority of the Syrian Military is Sunni at 64%

FSA is legitimate- false, it has almost faded now and they give arms to "ISIS" and Al Nusra Front

FSA should be allowed to separate- they allow foreigners to give them arms so the answer is no

Russian Puppet- No, Russia got involved two years into the war. Turkey works with America by the way.

Iranian Satellite- Fair accusation, he supports Palestine with Iran, however Iran does not install leaders

Religious Persecution- I have not heard this one yet, he has rebuilt Synagogues and Churches.

Too much Terrorism in Syria- the US has the largest amount of terrorists; it is called the US military. Who do you think funded "ISIS"....? 15 billion dollars go to the Zionists a year to further expand into the West Bank.

The leader HAS to go the best of intent, worst of results. This goes beyond communist and capitalist, somebody HAS to win. This is freedom verse enforcers. If the Sunni enforcers win, the Shiite's will rebel in anger. It is true that the enforcers (FSA soldiers) have good intent, but they do not see the consequences of what will come of it. This is not Vietnam where South Vietnam surrenders one day, nobody wants to surrender. I make the case for Bashar Al Assad not because I do not care if it is Shiite lead but because I know in my heart that Syria will turn into Iraq. Saddam was big on freedom and no one condemned him because he was a Sunni. With hope and prayers this conflict shall cease.

Saudi Arabia Failure

- are taught the Crusades are still ongoing

- are taught all Christians go to hell for all of eternity

- their country helped fund 9/11

- America is their ally while America is the Zionist ally

- they harass Shiites

- banned all non Mosque houses of worship

- they dress women to where you can't see their faces in public

- they write in fake hadith's (uh oh)
